

Joshua M. Adkinson, MD, grew up outside of Philadelphia, Pennsylvania. He graduated Summa Cum Laude from Ursinus College, where he was a member of Phi Beta Kappa, and earned his medical degree from Jefferson Medical College. He completed a general surgery internship at Dartmouth-Hitchcock Medical Center, a plastic surgery residency at Lehigh Valley Health Network and a hand and microsurgery fellowship at the University of Michigan, where he focused on complex adult and pediatric upper-extremity reconstruction.

Dr. Adkinson began his academic career at Northwestern Feinberg School of Medicine, where he practiced at Ann & Robert H. Lurie Children's Hospital of Chicago. In 2016, he was recruited to Indiana University School of Medicine as Chief of Hand Surgery in the Division of Plastic Surgery. He practices at Eskenazi Hospital and Riley Hospital for Children and is a founding member of the adult and pediatric multidisciplinary brachial plexus and spasticity programs.

Board certified by the American Board of Plastic Surgery with Subspecialty Certification in Surgery of the Hand, Dr. Adkinson specializes in complex upper extremity reconstruction, nerve injury, trauma, spasticity and congenital differences. He has authored over 70 peer-reviewed articles and 36 book chapters, delivered more than 100 regional, national and international presentations and serves in leadership roles within national surgical societies.

Dr. Adkinson is committed to thoughtful, patient-centered care, particularly for patients facing life-altering injuries and congenital conditions.
