

Ahmed Afifi, MD, is a Professor of Plastic Surgery at the University of Wisconsin. His clinical practice focuses on aesthetic surgery, breast reconstruction and the surgical treatment of headaches and migraines. Dr. Afifi currently serves as the immediate-past president of the Migraine Surgery Society and is the past president of both the Wisconsin Society of Plastic Surgeons and the Midwest Association of Plastic Surgeons. His publications include clinical research and qualitative outcomes, as well as multiple articles on education and aesthetic surgery in academic plastic surgery. He has received funding from multiple national societies, as well as intramural and extramural grants, and holds multiple leadership roles in national and international societies.
