

Carrie Chu, MD, is an Associate Professor in the Department of Plastic Surgery at the University of Texas MD Anderson Cancer Center, where she has practiced since 2016. As the Medical Director for the Julie Kyte Center for Reconstructive Surgery, she oversees the ambulatory operations of the plastic and reconstructive surgery outpatient clinic at MD Anderson at the Texas Medical Center. Her clinical practice focuses on breast cancer reconstruction and the surgical treatment of lymphedema. She has specific expertise in microvascular autologous breast reconstruction, including non-abdominal donor site options and secondary reconstruction in the setting of previously failed surgery. She also specializes in minimally invasive surgical techniques to harvest vascularized lymph nodes for the treatment of lymphedema. Dr. Chu graduated from Cornell University and Georgetown University School of Medicine. She completed general surgery and plastic surgery residencies at Emory University, where she also received a Master of Science degree in Clinical Research. She completed her fellowship in Microvascular Reconstructive Surgery at MD Anderson. She is married to another plastic surgeon, Sebastian Winocour, MD, MBA, FACS; together they enjoy parenting a spirited three-year-old girl.
