

**Jason M. Souza, MD FACS**

Director, Orthoplastic and Advanced Amputation Program, The Ohio State University

Director, Military Medicine Program, The Ohio State University

Associate Professor, Department of Plastic & Reconstructive Surgery, The Ohio State University

Associate Professor, Department of Orthopaedics, The Ohio State University

Veteran, United States Navy (Commander)

**Bio**

Dr. Souza is Director of the Orthoplastic and Advanced Amputation Program at The Ohio State University Wexner Medical Center. He is an Associate Professor in the Departments of Plastic & Reconstructive Surgery and Orthopaedics. He went to college at Brown University, where he studied neuroscience in addition to his pre-med studies. He earned his medical degree from Harvard Medical School and completed plastic surgery residency training at Northwestern University McGraw Medical Center. Dr. Souza also completed a research fellowship at the Center for Bionic Medicine at the Rehabilitation Institute of Chicago (now known as the Shirley Ability Lab). Dr. Souza has a particular interest in extremity and nerve injury reconstruction, as well as advanced amputation care. Dr. Souza is a veteran of the United States Navy, having achieved a rank of Commander in the Medical Corps while serving on active duty for 6 years. During his military service, Dr. Souza served as Director of the Peripheral Nerve Program at Walter Reed National Military Medical Center. As a surgeon scientist, Dr. Souza has been at the forefront in advancing reconstructive surgical science for the care of the Wounded Warrior. He continues to serve on the Steering Committee for the Department of Defense Osseointegration Program, and in concert with his orthopedic partners, has performed the largest number of osseointegration surgeries in the United States, having provided this state-of-the-art care to almost 100 amputees to date.
