Eligibility

**Applicants must...**

• be a MD, DO, or PhD

• hold a full-time clinical or research position where the research will be conducted

• be an Active, Candidate, International, or Associate member of ASPS or obtain sponsorship from an Active ASPS member at your institution
  - This is a requirement if you are currently in your training
  - For multiple PIs, a sponsor is required for only the applying PI
  - ASPS Associate Members may apply with identified ASPS Sponsor

Grant Description: Priority will be given to applications which translate clinical or basic science research findings into clinically relevant advancements or tools with a high likelihood of impacting daily practice and patient care within the next few years. Applications will be evaluated based upon the importance of the study question, soundness of study design, demonstration of study feasibility through preliminary/pilot data, the quality of the investigator team, and use of appropriate statistical and analytic methods.

Award Amount: Up to $50,000

Project Duration: Up to 24 months

Earliest Start Date: July 1, 2023

Award Announcements: June 2023

Reporting: Progress reports (technical and financial) are due at six (6) months, twelve (12) months, eighteen (18) months, and final reports (technical and financial) are due at twenty-four (24) months. Details on reporting requirements will be sent to the PI once awarded.

The PSF is dedicated to fostering the growth of research in Plastic Surgery. In order to ensure The PSF is successful in building a diverse, committed, inclusive, and self-sustaining plastic surgery research community, applications may also be evaluated on whether the PI is currently funded by The PSF, the PI has an open no cost extension by The PSF, or whether there are multiple grant submissions from the same lab at the same institution.

The PI or their Sponsor’s donation history to the PSF may also be considered in the review of the application.

Online Application: All Applications must be submitted online through proposalCENTRAL. (proposalcentral.altum.com)

Deadline: Grants must be submitted in proposalCENTRAL by 11:59 P.M. (EASTERN) on or before the deadline. NO late submissions will be accepted. Corrections of oversights/errors discovered after the deadline will not be allowed.

Multiple Submissions: Applicants may submit more than one grant application ONLY if they are scientifically different, but only one research project may be funded.
**Grant Writing Module:** All applicants who have **not** been previously funded by The PSF **must** complete The PSF’s **Grant Writing Module.** You can find the grant writing module on ASPS Ed Net at either of the following links:

**Grant Writing Module Direct Link**

https://ednet.plasticsurgery.org/diweb/catalog/item?id=6158910

Applicants who have not previously logged in to plasticsurgery.org or ednet.plasticsurgery.org should click the ‘Create New Account’ link at the login screen to create a Medical Professionals account in order to gain access to the Grant Writing Module.
**Templates:** Bio-sketch, Other Support, Resources and Grant Writing Module Certificate templates are provided on the Research Plan & Other Attachments section in proposalCENTRAL.

---

**Deliverables Check List with Page Limits**

*Information Entered Directly into proposalCENTRAL*

- Project Summary: 1 PAGE  
  (2,500 characters max, including spaces)
- Impact Statement: 1 PAGE  
  (800 characters max, including spaces)
- Biography: 5 PAGES  
  (1,500 characters max, including spaces)
- Budget: 1 PAGE
- Budget Justification: 1 PAGE

*Documents to Upload- Page Limits will be Strictly Enforced*

- Signed Face Page
- Cover Letter for Resubmissions*: 1 PAGE
- Biographical Sketch: 5 PAGES each
- Other Support
- Resources
- Research Plan:  
  - Specific Aims: 1 PAGE
  - Research Strategy: 12 PAGES  
  (Please upload each section separately)
  - Human Subjects: 1 PAGE
  - Vertebrate Animals: 1 PAGE  
  (Tables/figures must be included within page limit)
Literature Cited _______ NO LIMIT
Leadership Plan _______ 1/2 PAGE
Consortium/Contracts

IRB /IACUC Approval Documentation* (Required within 90 days of award notification)
Sponsor Letter*
Letters of Support*
Grant Writing Module*
Appendix* _______ NO LIMIT (Upload any/all images as “Appendix” items)

* Submit if applicable – all other documentation is required

Formatting Requirements:
- The minimum acceptable font size is 11 (Arial or Helvetica; no condensed fonts).
- The maximum number of lines per inch is 6; DO NOT PACK LINES BY SETTING LINE SPACING AT “EXACTLY”.
- Use at least one-half inch margins (top, bottom, left and right) for all pages, including continuation pages.

Key Personnel

Documentation is required from the following personnel

<table>
<thead>
<tr>
<th>Personnel</th>
<th>Role Description</th>
<th>Biosketch</th>
<th>Other Support</th>
<th>Letters of Support</th>
<th>Sponsor Letter</th>
</tr>
</thead>
<tbody>
<tr>
<td>PI (Applicant)</td>
<td>Applies for and writes the grant. Oversees and directs the research.</td>
<td>✓</td>
<td></td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Multiple-PI</td>
<td>Shares equal responsibility with PI. Does not need to be from the same institution as the PI.</td>
<td>✓</td>
<td>✓</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>“Co-PI”</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Co-Investigator</td>
<td>Highly involved in the scientific development or execution of the project.</td>
<td>✓</td>
<td>✓</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Collaborator</td>
<td>Moderately involved in the scientific development or execution of the project.</td>
<td>✓</td>
<td></td>
<td></td>
<td>✓</td>
</tr>
<tr>
<td>Sponsor</td>
<td>Required for non-ASPS applicants and those in training. Can also serve another role on the grant but isn’t required to.</td>
<td>✓</td>

*Not required unless also serving in another role, example: Co-Investigator or Collaborator, then follow those guidelines.

Enter the following information directly into the Project Summary section of your application in proposalCENTRAL.

Project Summary: This is the summary description of your research project. In language suitable for the public, please describe the project’s broad, long-term objectives and its specific aims. Describe concisely the study design and methods, as well as the rationale, and techniques to be used to achieve the aims.

Impact Statement: In language suitable for the general public, describe the potential of real, clinical impact this research is likely to have on the practice of plastic surgery.

Biography: In language suitable for the general public, please include a professional biography.
Budget: Complete all sections of the budget following these limitations:

- Budgets can NOT include: indirect costs, administrative costs, travel, publications costs, or capital equipment*.
  - *Capital Equipment is defined as any asset having a useful life of more than one year. Examples include but are not limited to (laptop computers, iPads, software, cameras, cryogenic systems, incubators, dry boxes, cell counters, etc.)
- Budgets can NOT include salary support for PI, Co-PI, Co-Investigators, or Collaborators.
- Budgets CAN include salary for research assistants and lab technicians who are not also serving in other key personnel roles (see Key Personnel Chart above).

Budget Justification (2 PAGES): Please clarify and describe the purpose and need for each item listed on the Budget page, i.e., Personnel, Consultant Costs, Supplies, etc. Under Personnel, roles for each person should match what you’ve entered into proposalCENTRAL. For a study that requires more resources than this grant provides, please describe any institutional or other support you have.

Upload these deliverables in the Research Plan & Other Attachments section of your application in proposalCENTRAL.

Face /Signature Page: After completing your application in proposalCENTRAL, you will need to print your Face Page (Signature page) to obtain your institutional signatures. Once you obtain all signatures, please convert your Face Page to PDF and upload to your application in proposalCENTRAL. Please plan accordingly as obtaining the appropriate signatures may take time. Your grant submission will not be reviewed without institutional sign off.

Biographical Sketch (5 PAGES): Submit an NIH bio-sketch for those directly involved with the project (see chart above for required personnel). Expand the space for educational training if necessary. If you are omitting publications due to space limitations, include the statement: “The following publications were selected from among a total of ____ (#).” List selected ongoing or completed (during the last three years) research projects. Begin with the projects that are most relevant to the research proposed in this application. Include the project number, dates, source of funds, project title, your role in the project and briefly indicate the overall goals of the research project. Do not list award amounts or percent effort in projects. See example provided within the proposalCENTRAL Templates page.

Other Support: Please provide information on all active or pending support from any source (see chart above for required personnel). Include the project number, dates, source of funds, project title, award amounts, percent of effort in months, and briefly indicate the overall goals of the research project. Indicate and explain any scientific or budgetary overlap between funding, and other overarching projects. For individuals with no active or pending support, please indicate NONE. See example provided within the proposalCENTRAL Templates page.

Resources: Limit the description of resources available to those identified on the form.

Upload each section of the Research Plan as separate PDFs into proposalCENTRAL even if you are indicating N/A.

Research Plan (A - G)

A. Specific Aims (1 PAGE): This section should include a brief introductory paragraph. The introduction should give a brief overview of the project and state its significance and central hypothesis. Each Specific Aim shall be comprised of a title, rationale and hypothesis.

B. Research Strategy (12 PAGES): Organize the Research Strategy in the specified order and using the instructions provided below. Start each section with the appropriate section heading - Significance, Innovation, Approach. Cite published experimental details in this section and provide the full reference in the Literature Cited section. Tables and Figures should be included within the text of this section.

Significance
• Explain the importance of the problem or critical barrier to progress or gap in knowledge in the field that
the proposed project addresses.
• Explain how the proposed project will improve scientific knowledge, technical capability, and/or clinical
practice in one or more broad fields.
• Describe how the concepts, methods, technologies, treatments, services, or preventative interventions
that drive this field will be changed if the proposed aims are achieved.

Innovation
• Explain how the application challenges current research or clinical practice paradigms.
• Describe any novel theoretical concepts, approaches or methodologies, instrumentation, or interventions
to be developed or used, and any advantage over existing methodologies, instrumentation, or
interventions.

Approach
• Discuss the PI’s preliminary studies, data, and/or experience pertinent to this application.
• Provide detailed plans for analysis including statistical methods, control and experimental groups, as well
as expected outcomes
• Describe the overall strategy, methodology, and analyses to be used to accomplish the specific aims of the
project. Include how the data will be collected, analyzed, and interpreted as well as any resource sharing
plans as appropriate. Please make sure to include discussion of your sample size justification and your
power calculations, if applicable.
• Cite relevant publications to support your approach.
• Discuss potential problems, alternative strategies, and benchmarks for success anticipated to achieve the
aims. Provide detailed pitfalls and alternative strategies. Consider and discuss how negative data will be
used or interpreted.
• If the project is in the early stages of development, describe any strategy to establish feasibility, and
address the management of any high risk aspects of the proposed work.
• Point out any procedures, situations, or materials that may be hazardous to personnel and precautions to
be exercised.
• State how the findings from this study will inform the next stage of research.
• State expected outcomes and any potential limitations/obstacles to obtaining results.

C. Human Subjects (1 PAGE): If applicable, briefly summarize the use of human subjects, including specific
references to adherence of accepted standards, and documentation of the project’s review by an appropriate IRB
or hospital ethics board. This includes Protection of Human Subjects, Inclusion of Women and Minorities, Inclusion
of Children, and Targeted/Planned Enrollment Tables for Race and Ethnicity. Do not include the entire IRB
application. In addition, if available include copies of all Approval Letters from the appropriate IRB Board(s),
including Bio-Safety and/or Radiation Safety (if applicable). Indicate N/A if you are not using Human Subjects
within your research.

D. Vertebrate Animals (1 PAGE): If applicable, briefly summarize the use of animals in scientific research, including
specific reference to adherence to accepted standards (e.g. NIH publication No. 86 23). In addition, if available
upload the documentation of the project’s review by the appropriate institutional committee, including BioSafety
and/or Radiation Safety. Indicate N/A if you are not using Vertebrate Animals within your research.

E. Literature Cited: Please list all references in order of occurrence of their first mention in your proposal, in number
or superscripted form.

F. Leadership Plan (1/2 PAGE): For applications proposing multiple PIs, or the Applicant has an ASPS Sponsor, a
leadership plan is required. The governance and organizational structure should be described, including
communication plans and procedures for resolving conflicts. The shared administrative, technical and scientific
responsibilities for the project or program should be delineated for the PIs. Indicate N/A if you are not required to
submit a leadership plan.
G. **Consortium and Contractual Agreements**: If applicable, describe all research relationships required for this project carefully. Indicate N/A if this is not required.

**IRB/IACUC**: Institutional IRB/IACUC approval letters must be on file in The PSF Executive Offices within ninety (90) days of written notification of the Award. If the approval is not on file within the ninety (90) day time frame, the Award will be rescinded by The PSF. All annual renewals of IRB/IACUC approvals must be sent to The PSF Executive Offices within thirty (30) days of receiving such renewal.

**Sponsor Letter**: If the applicant is in training, an original letter from your ASPS Sponsor must be submitted (see chart above for requirements). This letter must verify that the Applicant will be present and fully available to carry out the proposed work during the allotted time period. Applicants, for which this eligibility requirement is not met, will not have their application reviewed.

**Letters of Support**: All Co-PIs, Co-Investigators and Collaborators must submit an original Letter of Support for their involvement in your research project (see chart above for required personnel). Letters of Support are addressed to the applicant and should describe the Co-PI/Co-Investigator/Collaborator’s credibility, intended contribution, role, commitment, and provide support for the work being proposed. If the Sponsor is also serving as a Co-PI, Co-Investigator or Collaborator, then the Sponsor Letter and Letter of Support can be combined. The Sponsor should indicate that they are also serving as a Co-PI, Co-Investigator or Collaborator for the project. A separate letter from each Co-PI/Co-Investigator/Collaborator is required.

**Resubmissions**: In addition to resubmitting all required application documents, resubmissions must be accompanied by a cover letter that summarizes the substantial additions, deletions or changes to the application. If you were provided a summary statement from your previous review, please also include a point-by-point discussion of the issues raised in your summary statement critiques. Please upload your Cover Letter in the Research Plan & Other Attachments section of your application in proposalCENTRAL. Note: Only those resubmitting a grant application must upload a Cover Letter.

**No-cost extensions**: Written requests for extensions must be received ninety (90) days before the expiration of the original grant period and are subject to approval by the Chair of The PSF Research Grants Committee. An approval of an extension DOES NOT include the award of additional funds. In addition, the Principal Investigator must provide The PSF with additional progress reports (technical and financial) six (6) months and twelve (12) months past the original project end date.

**Additional Funding**: The Principal Investigator may apply for additional funding. Those who want to expand upon their project at the end of the original time period will need to re-apply for additional funding.

**Transferring Institutions**: This grant is NOT transferable to another individual within the Institution and NOT transferable to another institution OR to operating funds. If the Principal Investigator or Sponsor leaves the Institution, the Principal Investigator, Sponsor and the Institution must notify The PSF within thirty (30) days and all unused funds MUST be returned.

**Budget Changes**: A certain degree of latitude to re-budget within and between budget categories to meet unanticipated needs is allowable. If your expenses fall outside of your original approved budget categories by a degree of more than 10% of your total award, prior written approval will be required, along with a revised budget and a justification for why the changes are necessary to complete your project. In addition, inclusion of any budget category that was not included in the original approved budget must also be approved by The PSF. All reallocation requests are subject to the current grant guidelines and must be approved by The PSF.
