# THE PSF: PLASTIC SURGERY'S FORCE MULTIPLIER

## FUNDING THE FUTURE OF THE SPECIALTY

Grant applicants for 2021 requested more than \$3.3 million. The PSF Study Section Subcommittees of Basic and Translational Research and Clinical Research Evaluated 106 applications on the following topics:

- Breast (Cosmetic/Reconstructive) - 11%
- Composite Tissue Allograft Transplantation - 1.5%
- Cranio/Maxillofacial/Head and Neck - 11%
- Economic Analysis/Quality - 7%
- Education - 4.6%
- Fat Grafting - 1%
- General Reconstructive - 6%
- Hand or Upper Extremity - 8.2%
- Microsurgery - 4.6%
- Nerve/Peripheral Nerve - 9.2%
- Other - 3.6%
- Technology Based - 12.8%
- Tissue Engineering - 10%
- Wound/Scar - 9.7%

## SUPPORTING RESEARCH

The PSF awarded more than \$755,00 to support 25 plastic surgery research proposals.

The Scott Spear Innovation in Breast Reconstruction Research Fellowship was awarded for the fourth consecutive year thanks to the generosity of the Spear family and to honor the memory of the late breast surgery pioneer and advocate.

This year, The PSF has awarded one Grant on Breast Implant Safety to encourage studies designed to assess breast implant safety, including local and systemic complications and illnesses related to breast implants.

New PSF Diversity and Inclusion: Recruitment and Retention grant was awarded in 2021.

The Innovation in Wound Care Research and Academic Development Fellowship was launched last year to promote and support the career development of junior surgeon-scientists focused on advancing wound healing patient care through research and interested in building a competitive research lab.

Two Clinical Research Leaders Scholarships have been awarded this year to provide support for surgeons to enhance their skills in outcomes/translational/clinical research. Our total is now nine and these scholars are meeting annually to encourage collaboration and sharing their experiences with the ASPS-atLarge.

The PSF Translational and Innovation Research Grant has now been awarded to eight recipients to accelerate the translation of scientific discoveries and technical developments into practical solutions that improve human health through innovation funding. Some projects awarded in the initial years are reaching completion.

The FRANCHISE (Finger Replantation and Amputation Challenges in Assessing Impairment, Satisfaction and Effectiveness) multicenter study completed data analysis; two papers accepted for publication.

The National Breast Implant Registry (NBIR) and the Patient Registry and Outcomes For Breast Implants and Anaplastic Large Cell Lymphoma (ALCL) Etiology and Epidemiology (PROFILE) continue their growth and are being used regularly by the plastic surgery community and the FDA to facilitate breast implant safety.

The PSF will present a virtual Grant Application Mentoring Session on November 8, 2021 for all ASPS Members to provide feedback and offer expertise and on grant proposals for those preparing to submit research grant applications to The PSF.

## CHARITABLE GIVING

### Breast Reconstruction Awareness Fund

AWARDED

**\$215,000**

For awareness, charitable care and research in 2020

Thank You to the  
2021 Maliniac Inductees

Dr. Dan and Mrs. Lynsi Hatfe

Drs. John and Katie Osborn

The 2021 Chicago & San Francisco

BRA Events both have

**\$50,000**

fundraising goals to help support local breast reconstruction awareness programs and patients.

## HOW TO DONATE

Online

For a quick, easy and secure online donation  
Go to [www.thepsf.org/donate](http://www.thepsf.org/donate)

Phone

Call (847) 228-9900 and speak to one of our Member Services Representatives today.

Mail

Please make checks payable to:  
The Plastic Surgery Foundation  
P.O. Box 734964  
Chicago, IL 60673-4964

**Text2Give**  
Mobile Donations Made Easy

THE PLASTIC SURGERY FOUNDATION™

The American Society of Plastic Surgeons and The Plastic Surgery Foundation are extremely grateful to the corporations we have partnered with at the local and national level.

Thanks to your continued dedication, our members can provide the highest quality patient care and maintain professional and ethical standards through education, research and advocacy of socioeconomic and other professional passions.

Each year, you fund a myriad of projects and activities that help achieve our shared goal to advance the quality of care for patients. Your contributions support education, research and other essential programs that demonstrates your commitment to patient safety and to building mutually beneficial relationships with ASPS and The PSF.

*Secretome from Human iPSC-derived Vascular Smooth Muscle Cells for Wound Healing*

PILOT RESEARCH GRANT, Yale University

### Amir Dehdashtian, MD, MPH

*Surface myoelectric control of sensorimotor function using RPNIs*

RESEARCH FELLOWSHIP, The Regents of the University of Michigan

### Jeffrey Friedrich, MD

*Surgical Education to Enhance Patient-Centered Communication*

ACAPS/PSF COMBINED PILOT RESEARCH GRANT, University of Washington

### Michelle Griffin, PhD

*Identification of regenerative and scarring fibroblasts in the orofacial region*

NATIONAL ENDOWMENT FOR PLASTIC SURGERY GRANT, Stanford University School of Medicine

### Joanna Ledwon, PhD

*Role of miR-193a-5p in skin growth induced by tissue expansion*

PILOT RESEARCH GRANT, Ann & Robert H. Lurie Children's Hospital of Chicago

### Hannah Lee, MD, PhD

*Novel neural scaffold with temporal and spatial regulation of neurogenic factors*

AAHS/PSF COMBINED PILOT RESEARCH GRANT, Philadelphia Research and Education Foundation

### Solomon Lee, MD, MS

*An augmented reality model for evaluating traumatic craniofacial fractures*

ASMS/PSF COMBINED PILOT RESEARCH GRANT, The Regents of the University of California, San Francisco

### Evan Matros, MD, MPH

*Randomized Trial: Pre-pectoral vs Sub-pectoral Prosthetic Breast Reconstruction*

NATIONAL ENDOWMENT FOR PLASTIC SURGERY GRANT, Memorial Sloan-Kettering Cancer Center

### Mitchell Pet, MD

*A Novel Intramuscular Near Infrared*

*Spectroscopy Probe for Free Flap Monitoring*

ASRM/PSF COMBINED PILOT RESEARCH GRANT, Washington University in St. Louis

### Whitney Quong, MD

*The Scar Experience: Establishing Reference Values for the SCAR-Q*

PSRC/PSF COMBINED PILOT RESEARCH GRANT, The Hospital for Sick Children

### Dino Ravnic, DO

*Intraoperative Vascularized Adipose Flap Bioprinting*

AAPS/PSF COMBINED PILOT RESEARCH GRANT, The Pennsylvania State University College of Medicine

### Meera Reghunathan, MD

*Plastic Surgery Research, Education, and Preparation Promoting Equity & Diversity*

PSF DIVERSITY AND INCLUSION GRANT, University of California, San Diego - Health Sciences

### Anna Schoenbrunner, MD

*Toward a Collaborative Model of Care for Gender Affirmation Surgery*

RESEARCH FELLOWSHIP, The Ohio State University

### Ronnie Shammass, MD

*Prioritizing Preferences for Breast Reconstruction Through Shared Decision-Making*

NATIONAL ENDOWMENT FOR PLASTIC SURGERY GRANT, Duke University Medical Center

### Mithun Sinha, PhD

*Host-Biofilm Interaction in Breast Implant Associated ALCL*

PSF DIRECTED GRANT - BREAST IMPLANT SAFETY, Indiana University

### Alex Wong, MD

*Multimodal Quantification of Lymphatic Insufficiency for Early Disease Detection*

ASRM/PSF COMBINED PILOT RESEARCH GRANT, City of Hope National Medical Center

### Amy Yao, MD

*Use of tranexamic acid in reduction mammoplasty: a randomized controlled trial*

PILOT RESEARCH GRANT, Albert Einstein College of Medicine

# SHARE

SURGEONS IN HUMANITARIAN ALLIANCE  
FOR RECONSTRUCTION RESEARCH AND EDUCATION

Surgeons in Humanitarian Alliance for Reconstructive, Research and Education (SHARE) is a new program from The PSF that seeks to enhance collaboration to improve care and surgical capacity in regions with limited numbers of plastic surgeons but high incidence of conditions requiring plastic surgery treatment. The SHARE program is tailored to local learners and their environment through three core components: Global Learners, Global Educators and Global Researchers.

## Global Learners

SHARE Global Learners are residents and junior surgeons from around the world who have demonstrated interest and ability in plastic surgery to establish an online community for regular case presentations, lectures, collaboration and mentorship. Global Learners will receive mentorship and access to online educational materials from the American Society of Plastic Surgeons.

## Global Educators

SHARE Global Educators provide mentorship and instruction to the Global Learners Community with teaching opportunities that range from online lectures to short teaching trips to multi-week "Professor in Residence" opportunities (due to COVID-19 travel restrictions, teaching opportunities are temporarily limited to remote learning).

## Global Researchers

SHARE Global Researchers will receive mentorship from established PSF researchers and be provided access to existing PSF Research Fundamentals resources on grant writing, research methods, data analysis and manuscript writing. The goal is to expand the body of plastic surgery knowledge and shape the development of new research projects to enhance the specialty worldwide.

## Meet the Global Learners

# Thank you

## Thank You to the 2020 - 2021 Maliniac Inductees

The Maliniac Circle was named for the co-founder of the American Society of Plastic Surgeons, Jacques Maliniac, MD. Fellows of the Maliniac Circle have made an outright gift of \$50,000 or more, or a minimum deferred gift of \$100,000. Maliniac Fellows advance plastic surgery to a higher level through research, innovation, and public service. We thank them for their commitment to the specialty.

**Dr. Geoffroy and Lauren Sisk**

**Dr. Gayle Gordillo**

**Dr. John E. Gatti and Margaret M. Gatti, ESQ**

**Dr. John and Katie Osborn**

**Dr. Dan and Mrs. Lynsi Hatf**

# THE PSF whoknew?

## We're Conducting our First RCT

SSI and Antibiotic Use Study is the first interventional, multi-center, randomized control trial being performed under the auspices of any plastic surgery society. The study compares the efficacy of two antibiotic treatments (single pre-operative dose versus one week of post-operative antibiotics) in preventing SSI in patients receiving immediate breast reconstruction with tissue expanders (TE-BR). Five U.S. sites are enrolling patients to provide direct evidence for the appropriate duration of antibiotics.

### Participating Sites

- Cleveland Clinic Foundation (Graham Schwarz, MD)
- Duke University (Brett Phillips, MD, MBA)
- Johns Hopkins Medical Center (Kristen Broderick, MD)
- University of Chicago School of Medicine (Summer Hanson, MD, PhD, FACS)
- University of Michigan (Adeyiza Momoh, MD)

### Co-Principal Investigators:

Christine Rohde, MD, MPH and Brian Gastman, MD

## We're Funding the Development of a BII Symptom Severity Scale

Breast Implant Illness (BII) is an entity we must learn more about as a specialty. Dr Andrea Pusic is leading an effort to identify what women consider the most common symptoms associated with BII as well as developing a patient-reported outcome scale to better characterize BII and help identify what could put a woman at great risk for BII. Once developed, this scale will be part of the NBIR!

## We're Entering the MATRIX to Increase Breast Surgery Safety Data

Use of ADMs and surgical meshes in implant-based breast reconstruction continues to be an area of focus for the specialty and the FDA. The PSF is seeking to collaborate with the Agency and industry to collect meaningful data that will better inform the use of these devices in breast surgery. Watch for more information about The PSF's new MATRIX registry.

# We're Seeing Members Like You Enter Data in PSRN

## Practice Type for all Registry Participants

*It's easy to connect The PSF and data collection with academic institutions as an 'ivory tower'-type of endeavor. The fact, however, is that 74% of our contributing sites are located in solo and private group practices - the significance of the contributions from our members in private practice cannot be overstated.*

-Gayle Gordillo, MD, The PSF President

## We're Growing the National Breast Implant Registry Together

- The PSF launched a simple and fast Device Tracking Mobile App for NBIR
- Almost 41,000 cases have now been entered into NBIR as of September 2021
