BREAST RECONSTRUCTION AWARENESS GRANTS

Each year, The PSF provides grants to organizations that help support charitable care and promote patient awareness of their breast reconstruction options. These grants truly impact patients at a critical time in their lives. Here is a quote from a patient at University Medical Center Foundation of El Paso (TX), a PSF Charitable Care Grant recipient:

“At a time where life stood still for me, and uncertainty was the only thing I could feel, your charitable care grant gave me some peace of mind and a feeling that someone cared about what I was going through.”
